2000mm x 1000mm	From \$595.00	From \$675.00	From \$725.00
3mm Corten Steel			
Finished Face Size	Flat	Single Fold	Double Fold
2000mm x 1000mm	From \$395.00	From \$475.00	From \$525.00

*2000mm x 1000mm is an example size - all screens are made to measure
Prices listed are for panels only and Exclude GST*

THE DSD FIX - SYSTEM

The DSD FIX framing system is the solution for your next project. Installation has never been so easy, saving you time and money.

At DSD, we have developed the “DSD FIX”, a multi-purpose framing system for our screen panels that can be manufactured to work in nearly all applications while maintaining beautiful, clean lines and strength. The DSD FIX system is available on all DSD products that would otherwise require a frame.

How does it work?

Our DSD FIX system works by utilising the sheet metal that the screen is cut from. We then fold the edges either once or twice. This makes a very strong frame that can be bolted together using the pre-cut holes.

Our method of manufacture is faster and much more cost effective than conventional fabricated box frames. The DSD FIX system allows you to cover larger spans simply by bolting panels together. This also saves you on installation time.

The DSD fix system is completely flexible with its modular design. If you want to add more screens later, simply bolt them on. If you want a double layered screen for more privacy, simply screw a flat panel to the existing panels. The possibilities are endless.

If you require additional framework, such as top and bottom post or uprights, we also have this covered. We can manufacture any additional metal work required to suit any project.

When you choose the DSD FIX system, all you need to do is simply bolt it together, fix it to your structure and enjoy the view.

PERFORATED POOL SAFE FENCING

EASY TO CLEAN AND LOW MAINTENANCE POOL FENCING THAT GIVES PRIVACY WHILST STILL ALLOWING THE BREEZE TO FLOW FREELY

Perforated Screen Close Up

The DSD perforated pool-safe fencing opens up a world of possibilities.

All our perforated panel designs are made by using a standard image that is then converted and replicated by punching thousands of holes, almost any image or pattern can be used. The panels are made from ultra durable marine-grade aluminium sheeting that is pre-treated, then powder coated for superior durability. Our panels are incredibly easy to clean and come in a large variety of colours.

- Panels are from 1200mm high and lengths made to measure up to 2900mm
- Non climbable, maximum hole size of 10mm diameter
- Custom design options are endless
- Powder coated aluminium
- DSD FIX framework
- Australian made
- Large variety of colours

We can convert all our screen designs into a perforated pool safe screen solution

IMAGE PERFORATED SCREENS

DSD's Image perf screens are all about the holes. The DSD Image Perf system provides an easy and flexible way to create the perfect design.

Using our unique design and punching process, we transfer your image into perforated metal panels. Each screen is designed and manufactured here in Australia to your exact specifications by our experienced team.

Customising your design is easy. Our team will work with you to modify the design for any number of applications, from perforated wall art screens, to custom entry gates or screens for ceilings and pergolas: At DSD, we have a solution for you.

RUSTING STEEL

Corten steel is the perfect option if you are seeking a bespoke low-maintenance screen solution.

Corten steel or Weathering Steel, is made up of a group of steel alloy materials which when left uncoated and exposed to the natural elements develop a very distinguishable natural rust patina.

Corten is known for its superior corrosion resistance; this is because the surface of the steel forms a protective oxide layer when exposed to the weather. In other words, the steel is allowed to rust in order to protect itself. The protective surface layer continues to regenerate over years of exposure.

GARDEN ART SCULPTURES

ELM LEAF

APPLE LEAF

FIG LEAF

Our sculptures are made-to-order using Corten Steel or Aluminium, with a large range of colours to choose from. All our designs have been created and crafted as garden and courtyard features and will look amazing for years to come. Our sculptures are perfect as an individual showpiece or group them together to create a beautiful stand-out feature.

We can also produce custom sculptures or art pieces to suit your exact requirements. Contact us for a quote.
